### PROFILE

A highly motivated Full-Stack Developer with 3+ Years of experience in developing and implementing user-friendly websites and applications using React, NextJS and Magento2. Skilled in developing responsive and interactive web designs, proficient in JavaScript, HTML, CSS, Magento2, ReactJS And Next.JS, Possessing strong analytical and problem-solving skills, with a passion for staying up-to-date with the latest technologies and trends in the industry. Seeking a challenging role in a dynamic organization where I can utilize my skills and expertise in Frontend development to deliver exceptional solutions.

### WORK EXPERIENCE

#### UniParticle

Sep 2024 - Present

- Worked on revamping APIs, marketplaces, and dashboards for the Aman website using Magento 2 backend.
- Designed and implemented multiple modules, enhancing the functionality and performance of the platform.
- Collaborated with cross-functional teams to optimize user experience and ensure seamless integration of new features.
- Developed and maintained dynamic web and mobile applications using React and React Native.
- Integrated payment gateways and shipping providers (Movex, Aramex, etc.) to expand e-commerce functionality and streamline logistics.

#### DB Group

May 2024 - Present

- Developed and maintained websites using ReactJS, Astro.js, and Next.js, enhancing user interfaces and overall performance.
- Utilized Node.js for backend development, ensuring efficient server-side logic and seamless integration with frontend technologies.
- Integrated multiple backend services to streamline workflows and improve platform scalability..

#### 2B

Jul 2024 - Apr-2025

- Specialized in Frontend Magento development, contributing expertise to enhance the user experience and visual appeal of e-Commerce websites.
- Crafted and maintained front-end code for Magento-based platforms, ensuring seamless integration of designs, responsive layouts, and optimal performance.
- Collaborated closely with cross-functional teams to implement dynamic web solutions, adhering to Magento standards and best practices, and actively participated in testing, deployment, and ongoing updates for e-Commerce websites.
- Developed and maintained kiosk smart screen interfaces for in-store digital experiences, integrating them with the main e-commerce system.

#### Raneen

Dec 2023 - Jul 2024

- Specialized in Frontend Magento development, contributing expertise to enhance the user experience and visual appeal of e-Commerce websites.
- Crafted and maintained front-end code for Magento-based platforms, ensuring seamless integration of designs, responsive layouts, and optimal performance.
- Collaborated closely with cross-functional teams to implement dynamic web solutions, adhering to Magento standards and best practices, and actively participated in testing, deployment, and ongoing updates for e-Commerce websites.

#### 2B

Jun 2022 - Dec 2023

- Under the supervision of the UX manager and development team, I maintained web pages, graphics, and online marketing materials.
- Created and maintained front-end code for e-Commerce websites (re-designs, seasonal updates, production work).
- Identified and implemented dynamic web solutions following company standards and best practices.
- Assisted the development team in developing e-Commerce Websites with testing, deployment, and updates.
- Conducted performance optimization and scalability testing to ensure optimal website speed and responsiveness, and implemented caching and other performance-enhancing techniques as needed.

### PROJECTS

- Created and Maintained E-Commerce Website: Kaza 
- Maintaining e-Commerce Website: 2B 
- Maintaining SmartStore on Raneen 
- Created the 2B-CS website using WordPress, including developing custom themes and plugins to meet the Company requirements and improve the user experience.
